

OPTIMAL[®]

FILTERS

The OPTIMAL range for filtration provides strong engine protection, high permeability levels and great filtration performance for oil, air, fuel, and cabin applications.

- Designed and manufactured to meet the highest standards
- Made from advanced filtration materials
- Excellent separation efficiency
- Absolute fitting accuracy
- High-quality production processes (exceeding the latest ISO standards)
- 86% coverage of current car fleets

OPTIMAL®

COMPLETE RANGE OF FILTERS FOR CARS

TOP-QUALITY AIR FILTERS

Dust, soot, water droplets and other air pollutants don't stand a chance with our filters.

By choosing an **OPTIMAL** air filter, you ensure:

- Advanced filtration media
- Strong engine protection
- High-temperature resistant seals
- Precise dimensional accuracy

TOP-QUALITY FUEL FILTERS

To prevent damage to the injection system and to maintain the vehicle's performance, fuel has to be kept clean and free of any impurities.

OPTIMAL oil filter selection ensures:

- State-of-the-art filtration material
- Vehicle-dedicated filtering efficiency
- Maximum fuel cleansing
- Protection of the fuel injection system

ADVANTAGES OF OUR CABIN FILTERS

OPTIMAL high-quality cabin filters provide clean, healthy air, remove dust and allergens, and extend your HVAC system lifespan for a better driving experience.

OPTIMAL cabin filters provide:

- Protection against pollutant agents
- High-quality filtration media
- Prevention of condensation build-up
- Protection from harmful substances and odors (carbon-activated versions)
- Precise fit

HIGH EFFICIENCY OIL FILTERS

Designed to protect engines, the superior filtration provided by our filters removes impurities and harmful particles from the engine oil, ensuring your engine's reliability and performance.

By selecting an **OPTIMAL** oil filter, you are guaranteed:

- High contaminant retention
- Pressure and temperature resistance
- Durable sealing rings
- Pulse resistance to the highest standard
- True precision high-level machining
