

OPTIMAL®

Your profit

Brake shoe kits complete OPTIMAL' range of brake products.

“All-in-one” solution for brake shoe repairs

Pre-assembled brake shoe kits from OPTIMAL are available now to make it easier for garages to fit brake shoes. The complete range of 400 part references released will save time and money for you and your customers. The product portfolio will be continuously extended and developed.

(OPTIMAL Automotive GmbH, Langenbach, Germany) OPTIMAL Automotive GmbH has added pre-assembled brake shoe kits to its range of brake products. The kits include brake adjusters, new mounting springs, wheel brake cylinders and brake shoes. By speeding up work processes, they provide you and your customers with an ideal, time-saving solution for changing brake shoes.

Benefits:

- ✓ In contrast to the laborious task of adjusting brake shoes using old adjusters, new brake adjusters of OEM quality enable brake shoes to be adjusted precisely.
- ✓ New springs of OEM quality ensure parts function faultlessly.
- ✓ New seals in the wheel brake cylinders always provide very effective protection against the loss of hydraulic fluid.
- ✓ The new brake shoes make vehicles safe and stable to drive.

OPTIMAL®

Your profit

OPTIMAL friction linings and brake shoe kits are manufactured in accordance with the ECE R90 standard and ensure flawless and optimum braking performance.

Technology tip: Please note!

The DOT 4 hydraulic fluid must be used when fitting the brake kits.
